Lifetime Recovery Awarded \$750,000 Challenge Grant from the Kronkosky Charitable Foundation

Red McCombs Recovery Center is announced!

San Antonio, TX - Lifetime Recovery is excited to announce significant strides in our Building for Recovery Phase II campaign. Lifetime has just been awarded a \$750,000 dollar-for-dollar challenge grant from the Kronkosky Charitable Foundation to renovate and expand our facilities to meet the growing client need. This challenge grant gives donors the unique opportunity to double their donation through this partnership.

In honor of long-time supporter and tireless community champion, Red McCombs, the primary building, "Old Main" will be renamed the "**Red McCombs Recovery Center**" to provide care in a residential setting.

Phase Two of our Building for Recovery \$3.6 million campaign will consist of the renovation of two residential halls. Renovations will provide over 60 client beds, additional open group spaces, counseling offices, an upgraded auditorium, and a family & community center, all designed to offer each person the dignity of healthy surroundings that they are more conducive to evidence-based treatment.

David Phipps, President & CEO states, "Lifetime Recovery is honored to have the support of the Kronkosky Charitable Foundation and Red McCombs. As one of the largest foundations in South Texas and a true leading philanthropist respectively, their generosity makes all the difference and will ensure successful completion of our building campaign."

###

About Lifetime Recovery

Lifetime Recovery is the largest non-profit residential substance abuse treatment facility in Bexar and surrounding counties. Since 1963, Lifetime Recovery has aided thousands of individuals seeking recovery. Lifetime offers professional, evidenced-based, cognitive behavioral therapy and treatment with a curriculum utilizing a holistic approach to life change. Lifetime provides outpatient and inpatient treatment to men and women for alcoholism and substance abuse disorders. We change lives through comprehensive treatment to those who are uninsured, under-insured, and medically indigent.
